

Vision Commercial Kitchens

Focus on Garden Centres

1 | Wards

Value: £130K
Type: Turnkey project
Length: 3 weeks

Our kitchen and coffee shop were both in serious need of a complete update and refurb. With the help and experience of the friendly team at Vision, we now have a well appointed, organised and efficient kitchen. Add to that a brand new redesigned, modern server and counter and welcoming foyer area with new automatic doors. We now give a fabulous first impression that befits our new kitchen's capabilities.

Sue Poulton, Proprietor, Wards Garden Centre

2 | Pennine

Value: £176K
Type: Kitchens, counters and refrigeration
Length: 3 weeks

The final kitchen and coffee shop installation that the team at Vision created for us has been an overwhelming success. The kitchen doubled in size and was planned so it operates at its full potential. They installed five new serving counters in the coffee shop to maximise the goods we have to offer our growing customer numbers. We could never have imagined quite how successful it would turn out to be.

William Armitage, Director, Pennine Garden Centre

3 | Brookside

Value: £82K
Type: Turnkey project
Length: 4 weeks

The transformation Vision have made to our coffee shop is phenomenal. It was crucial that the project was delivered by the beginning of November, in time for the Spring. From starting in September, the project was complete just 12 weeks later. We always had regular customers at Brookside, but we are now seeing new faces and the new coffee shop is proving very popular!

Janine Shead, Proprietor, Brookside Garden Centre

4 | Henry Street

Value: £280K
Type: Turnkey project
Length: 4 weeks

We were looking to completely overhaul our entire operation from kitchen to front of house. Vision's complete turnkey solution provided us with the peace of mind we needed to have all of this handled in the best possible way. From doubling the size of our kitchen with a full fit-out, including all plumbing and electrical needs, to new floors, counters and furniture in the coffee shop. Vision proved their expertise which far exceeded our expectations and made it a pleasure to work with them.

Peter Goold, Proprietor, Henry Street Garden Centre

Our flagship site, the new purpose built Hillier Garden Centre at Pevensey near Eastbourne has a strong heart thanks to Vision's excellent team. At every stage of the project we had nothing but praise for the way they worked and handled each aspect of the turnkey process. Both kitchen and back bar installations work perfectly, adding significant value to what we can offer our large and growing customer base.

Richard Gorman, Catering Manager, Hillier Garden Centre, Eastbourne
